

BIO Convention San Francisco 2016

Enterprise Europe Network

European Commission booth: #5978

TECHNOLOGY TRANSFER AND OPEN INNOVATION IN EUROPE AND BEYOND

Join our network and meet Europe's most prestigious research organizations and innovative SMEs

❖ **Who we are and what do we do for you.**

Enterprise Europe Network is the EU's largest business support network bringing together research and commercial applications. *Enterprise Europe Network* is a consortium of 600 partner organizations in more than 50 countries promoting competitiveness and innovation in Europe and beyond.

Enterprise Europe Network helps SMEs, universities and research organizations build international partnerships grow their business and collaborate in EU funded R&D projects.

Do you need information about how EU laws and regulations affect your business? The *Enterprise Europe Network's* experts can help you find your way through the legal maze and make it easier to sell your product or service in another EU country.

❖ **Are you looking for a technology or a commercial partner?**

At the European Commission booth #5978, the *Enterprise Europe Network* BioChemTech Sector Group will be happy to inform you about collaboration and business opportunities in Europe, as well as to help you identify organizations that can help you grow your business in Europe, and also in the USA.

❖ **Use the European Commission booth for your one-to-one meeting!**

You have a unique opportunity to contact and meet with the *Enterprise Europe Network* clients and partners in order to discuss your business needs. Please contact us in advance to arrange one-to-one meetings.

❖ Wednesday, 8th of June. 10:30 - 11:30 am

European Medicines Agency: Support to SMEs

Speaker: Dr. Sabine HAUBENREISSER - European Medicines Agency liaison official at the U.S. FDA

Dr. Haubenreisser will present an outline of the European Medicines Agency's international cooperation activities, with the emphasis on cooperation between EMA and US FDA. Dr. Haubenreisser will give a detailed presentation on how the EMA assists SMEs throughout the development and submission of a Marketing Authorization Application, as well as introduce the EMA's new PRIME scheme which is designed to help sponsors bring new medicines to patients more effectively.

❖ Wednesday, 8th of June. 2:00 - 3:00 pm

EU funding opportunities for SMEs

Speakers: Antoine MIALHE – European Commission, and Isabelle POTTIER - *Enterprise Europe Network* - Paris Region Chamber of Commerce and Industry

With the shortage of early-stage life sciences funding, the role of government in funding the next generation of cures is becoming increasingly important. In January 2014, the European Union launched a multi-billion euro funding program dedicated to all innovative small and medium sized enterprises (SMEs) in Europe. The session will provide an overview of this EU program as well as similar R&D business-driven EU programs.

Take this opportunity to meet three companies successfully funded by the EU: Lophius Biosciences, Novosanis and Protein Alternatives.
